

Communique 1

On behalf of the panel of commissaires welcome to the 2024 USA Cycling Cyclocross National Championships.

You will find all the information concerning the event on the USA Cycling website. Please note that the information posted on the following link is the official and most up-to-date information. Earlier versions of documents are void.

<https://cxnats.usacycling.org>

There are a few items to note:

Pit Passes: The wristband color matches the color for the day of racing. Lanyard pit passes will be used on Saturday.

Rider Numbers: Two Shoulder numbers and two bib numbers are issued to every rider. It is *essential* that *all four numbers* are properly worn during the event.

- Forearm numbers should be visible from the front. Avoid placing them on the sides, back, or under the armpit.
- Bib numbers are to be placed “USA Criterium Style” – one on each side with a gap between (when possible) on the back, with the bottom of the number aligned with and slightly above the side seam of the jersey.
- Bib numbers replace the chip timing system.
- Failure to properly display bib numbers will result in a \$20 fine and possible relegation. Help us help you be identified in the race and on TV.

Saturday Races: Meeting as per the schedule on Friday PM in the Tennis Office. Pit boxes will be allocated during this meeting. See Technical Guide for details.

Team Relays: Clarification of the exchanges: Flying exchanges are prohibited. Relay is by “touch” of the next rider to race.

Racing Position: Puppy paws position is prohibited. Use of the position will result in an immediate disqualification.
