

## Domestic Elite Team – Rider Add Form

### Addition of Riders:

Once an application is received, riders may be added to the roster by completing this Add Rider form. The fee for adding a rider is \$25. All riders added to the roster must still meet the team composition guidelines below as it pertains to number of riders, category, and sporting nationality.

**Riders added after March 31 will not be considered eligible for US Pro Road Nationals, regardless of whether the team was selected to participate.**

### Team Composition:

All teams applying for Domestic Elite Team status are subject to the following:

- Teams may register up to 15 riders per team, per gender. The minimum team size still is four riders for a specific gender.
- All riders listed on the roster must meet the required category restrictions at the time of the application. Men: Cat 1; Women: Cat 1/2. No age restrictions.
- 50% of the riders on a team's roster must be USA citizens with a USA sporting nationality. If a team is registering both a men's and women's team, 50% applies to both genders. Foreign riders listed on the roster must be current in the UCI DataRide system, indicating they hold a current license with their country's federation.

## Domestic Elite Team – Rider Add Form
