ROAD RACE INFORMATION

IDENTIFICATION NUMBERS:

Bib numbers are to be on the **RIGHT** side or upper thigh. Frame numbers are to be placed:

- B, C and T-Classes under the seat in the rear triangle
- H-Classes: On the upper part of the back rest, if possible. Otherwise on the safety bar, secured so it will not flap up in the wind

Transponder: fixed on the fork near the drop-out or, for H-Class with front bridge, on the bridge.

EQUIPMENT: H Class must have a mirror. T and H Class must always have a safety bar in place. If a rider loses a safety bar it must be replaced as soon as they reach the pit on that lap.

FEED ZONE: Located near the round-about. Right side feeding first, and left side feeding to follow at about 100 meters. Feeders may not step into the road more than 1 meter. Feeding is not permitted on the first 5 or the last 2 laps of any race.

STAGING: Rider staging will take place 10 minutes before the start or after all riders from the previous race have finished, with designated rows as follows. If a group contains a defending National Champion, that rider will start on the front row of the group.
