Neutral Support Equipment

Neutral support will have the following offerings available for the time trial and road races as this National Championship:

- Front wheels with 160mm rotors
- Rear wheels (12 speed) with 140mm rotors
- Tire width is 30c

If any riders are utilizing alternative equipment, please contact Event Support Professionals via the information listed in the tech guide or stop by their tent at the race venue.

Day 5 Road Race

For the safety of competitors, no riders are permitted to warm on the racecourse while active competition is taking place.

Feed Zone

The feed zone will be open for all laps during each race on the course.

Facility Request

Please do not cross the fences on the east side of the field. The property on the east side of the field is not owned by the race venue.
